

Giving soils more voice!

ESP-JRC-ENSA 2019 @ Summer of Soil
European Network on Soil Awareness

19-20 September 2019

Fruittuin van West Organic Farm

Amsterdam, The Netherlands

Giving soils more voice!

The sixth ENSA-JRC meeting aims to bring together people who have a common aim of raising awareness of the importance of soil. The meeting is a forum to exchange best practices and learn about what is happening across Europe.

A key focus of this meeting will be a dedicated marketplace of soil awareness activities in The Netherlands.

The meeting supports the implementation of the European Soil Partnership Plan of Action on education and soil awareness.

Proposals for short interventions are welcome.

For further details about any aspect of the meeting and for contributions, please contact any of the following people:

Arwyn Jones: arwyn.jones@ec.europa.eu

Gabriele Broll: gabriele.broll@uni-osnabrueck.de

Pieter Ploeg: pieter@commonsoil.org

Registration

Online registration is required via:

<https://web.jrc.ec.europa.eu/remjrc/screen/meeting/3706/registration-form>

Login and then scroll to find:

JRC-ENSA Soil Awareness 2019 (Amsterdam)

Deadline for online registration is **13th September 2019**

Payment

No fee is requested to participate in the workshop

Reimbursements options are conditional upon EC-JRC reimbursement policies. There are some costs involved for meals

Giving soils more voice!

European Network on Soil Awareness

**EUROPEAN SOIL
PARTNERSHIP**

The European Soil Partnership (ESP) reflects the regional implementation of the Global Soil Partnership (GSP), an initiative of FAO supported by the EU, for increased governance of soil. Specifically, the ESP facilitates cooperation and knowledge sharing within the broader European region.

Pillar 2 of the ESP addresses policy, awareness, education, extension and investment. Pillar 2 is wide ranging in scope and that its core issues underpin many of the actions of the other pillars. In particular, the need to address the lack of societal awareness of the importance of soil, combined with a lack of education, is partly responsible for unsustainable land management, an overall lack of investment in soil and a political reluctance to meaningfully adopt and ensure soil protection and enhancement measures.

Thursday 19 September

Focus of the day: Netherlands campaigns

10:00 Internal Meeting:
Working Group Soil Awareness

12:00 Registrations and Lunch at Fruittuin van West
